- [Learn More](#)

**>> SENTARA BELLEHARBOUR <<**

At Sentara, providing easy access to the highest quality medical care is a top priority. That's why we were so excited to announce the opening of [Sentara BelleHarbour](#), a state-of-the-art outpatient medical center that brings Sentara's board-certified doctors and top-notch services to the heart of North Suffolk.

From 24-hour emergency care with a 30-minute guarantee, to clinical services, to family doctors and specialists, Sentara BelleHarbour offers highly skilled practitioners and comprehensive care.

Since opening our doors in June 2008, we have seen more than 7,500 patients, and we are looking forward to continuing to serve the medical needs of this growing community for many years to come.

**>> SENTARA OBICI HOSPITAL <<**

On August 4, 2008, a groundbreaking ceremony was held at [Sentara Obici Hospital](#) for a new patient bed tower. This is the result of the State's approval of our COPN application for the

addition of 30 beds.

The three-story bed tower will include 48-beds—the 30 new beds plus the relocation of 18 existing beds.

This will create an expanded medical/ surgical unit which will allow patients from the emergency department to move more quickly into an

inpatient setting given this added capacity. The 2nd floor of the addition will be dedicated to orthopedic services.

Combining the design of this new bed tower with [Sentara Obici Hospital's](#) Planetree model of care—which is putting our patients' needs in the center of all we do—allows the physicians, volunteers, and staff the convenience and efficiency of providing more patient- and family-centered care right on the nursing unit.

## >> SENTARA ST. LUKE'S <<

This summer, the Isle of Wight Historical Architectural Review Committee approved the site plan and building elevations for the medical campus to be called Sentara St. Luke's, located in Isle of Wight County. Upon gaining final approval of the site plan and securing the necessary building permits, a groundbreaking is being planned for October 2008.

Phase I of the project will include a 48,000 square foot medical office building that will house services relocated from their current location less than 4 miles away in Smithfield, including Smithfield Medical Practice, physician specialty offices, diagnostic imaging capabilities with mobile MRI and CT, physical therapy and rehab services and urgent care. Planned opening: Fall 2009.

Stay tuned for more details in future newsletters!
