

Access your medical information with Sentara MyChart

Here's what patients are saying...

*"I really like it as I get my questions
answered in a timely manner."*

– JOHN, HAMPTON

*"Having my family member's medical
information all together in one place
is a huge relief."*

– ROGER, NORFOLK

*"I like it because I can read my test results,
sometimes the same day."*

– DEE, VIRGINIA BEACH

*"When I'm always on the road,
whether it is with kids or work,
I can manage all my medical information on
my schedule, and that's
really important to me."*

– CORRINE, WILLIAMSBURG

Your community, not-for-profit health partner

MyChart® Epic Systems Corporation

Sentara MyChart

**Powered by Sentara
eCare Health Network®**

SENTARA®

What is Sentara MyChart? MyChart is a web-based tool that provides secure and convenient access to your physician and your personal medical information.

With the click of a mouse, Sentara MyChart will let you:

- View lab or test results
- Renew prescriptions
- Schedule appointments and get appointment reminders
- Communicate with your physicians and their staff
- Manage the healthcare of a child, spouse or parent

Convenience & Flexibility

Office hours no longer dictate when you can schedule an appointment or access your health history. Sentara MyChart offers the convenience and flexibility of 24/7 access to your medical information and tools to manage your health.

Empowerment

With access to Sentara MyChart, you can be a better advocate for your and your family's health.

The Sentara eCare Health Network®

Sentara MyChart is one element of the larger Sentara eCare Health Network®. This new clinical system uses innovative technology to make your medical record accessible between Sentara hospitals, physician practices and other healthcare sites over a secure network.

The result:

Better collaboration and better care for you and your family.
