Your community, not-for-profit health partner

MyChart® Epic Systems Corporation

What is Sentara MyChart? Sentara MyChart is a web-based tool that provides secure and convenient access to your child's physician and his or her personal medical information.

With the click of a mouse, Sentara MyChart will let you:

- Manage the healthcare of your child or children
- View lab or test results, including immunization records
- Renew prescriptions
- Schedule appointments and get appointment reminders
- Communicate with your physicians and their staff

Convenience & Flexibility

Office hours no longer dictate when you can schedule an appointment or access your child's health history.

Sentara MyChart offers the convenience and flexibility of 24/7 access to your child's medical information and tools to manage your child's care.

Empowerment

With access to Sentara MyChart, you can be a better advocate for child's health.

The Sentara eCare Health Network[®]

Sentara MyChart is one element of the larger Sentara eCare Health Network[®]. This new clinical system uses innovative technology to make your child's medical record accessible between Sentara hospitals, physician practices and other healthcare sites over a secure network.

Ready to Get Started?

1. Complete a proxy form at your doctor office or download the form at www.sentara.com
2. Submit the signed form (in person) to your doctor office
3. Receive an activation letter with instructions on how to sign-up for Sentara MyChart
4. Activate your account (parent) and child's information will be available in 2-3 business days
