The medical staff of Sentara East Rockingham Health Center
“I USED TO SMOKE MY CIGARETTES. NOW I SCREEN MY LUNGS.”

A lung cancer screening is a low-dose CT scan that covers the entire chest and provides a more detailed look than a standard chest X-ray.

Find out if you qualify for this screening at sentara.com/screenmylungs, or call 1-844-EARLYDX.

Advanced Practice Clinicians, or APCs, are nurse practitioners and physician assistants. They are trusted medical providers who work under the supervision of a physician.

APCs serve as a primary care provider. They assess patient needs, order and interpret diagnostic tests and lab tests, diagnose illness and disease, prescribe medications and formulate treatment plans.

Advanced Practice Clinicians are a vital part of your healthcare team.

At Sentara RMH Medical Center, it’s not the state-of-the-art technology, the award-winning heart program or superior orthopedic services that define us.

It’s the people that make us who we are. It’s the dedicated physicians, nurses, housekeepers, technicians and so many others that are the heart of who we are and what we do.

**We are Sentara RMH.**
