The medical staff of Sentara East Rockingham Health Center
A lung cancer screening is a low-dose CT scan that covers the entire chest and provides a more detailed look than a standard chest X-ray.

“I USED TO SMOKE MY CIGARETTES. NOW I SCREEN MY LUNGS.”

Find out if you qualify for this screening at sentara.com/screenmylungs, or call 1-844-EARLYDX.

WHAT IS AN ADVANCED PRACTICE CLINICIAN?

Advanced Practice Clinicians, or APCs, are nurse practitioners and physician assistants. They are trusted medical providers who work under the supervision of a physician.

APCs serve as a primary care provider. They assess patient needs, order and interpret diagnostic tests and lab tests, diagnose illness and disease, prescribe medications and formulate treatment plans.

Advanced Practice Clinicians are a vital part of your healthcare team.
